WOOLING THE INDIANS

Lewis and Clark found tobacco a big help in blazing the trail through Indian territory to the Pacific in 1804-06. They shared tobacco with every tribe they met, paying the way for future trading and settlements.

SMOKERS' BURDEN

The cigarette tax costs the average pack-a-day smoker \$47.45 a year, reports the Tobacco Tax Council. State cigarette taxes average 5 cents a pack, while the federal tax adds another 8 cents. Some local governments also impose a tax on cigarettes.

In colonial America, tobacco leaf was used as money to pay doctors, teachers and clergymen, with a marriage ceremony costing 200 pounds of tobacco, and a funeral service 400 pounds.

Tobacco products cross retail counters more often than anything else — except money.

Consumers spent about \$7.5 billions for tobacco products in 1961. Of that total, about \$3.1 billion was for federal, state and local excise taxes.

Tobacco is the most heavily taxed of all agricultural products. About half of what consumers pay, on the average, for a package of cigarettes represents taxes.

Cigarettes from America were the only stable currency in the retail markets of Germany, Italy and France for two years after V-E Day.

More than 2,000 blind persons help support themselves by operating tobacco stands.

Growing tobacco requires an average of 380 man-hours per acre, far more than any other agricultural crop. An acre of corn requires about ten hours, four hours for wheat.

Smoke Tax 'Sky High'

WASHINGTON (UPI) — U. S. smokers paid enough in cigarette taxes last year to meet the cost of the U. S. Space Agency's fiscal 1963 program, with enough funds left over to buy 40 Atlas missiles, the Tobacco Institute estimates.

Little Known Tobacco Facts

A Dutch scientist reports a link between lung cancer incidence and soil conditions. He found more cases of lung cancer in dusty areas, fewer cases in damp areas.

Who uses snuff today? More than 4 million of us at last count. In industry, particularly in plants where smoking is for-

bidden, snuff is very popular with workers. Farmers prefer it, especially when working around their barns, because it will not cause fires. Miners, oil workers and forest rangers use it for much the same reason. Outdoorsmen, lumberjacks, and athletes are great snuff fanciers; also artisans whose trades call for the almost continuous use of the hands.
